Animal Spirits: How Human Psychology Drives the Economy ...

Animal Spirits: How Human Psychology Drives the Economy, and Why It Matters for Global Capitalism is a book written to promote the understanding of the role played by emotions in influencing economic decision making. According to the authors, economists have tended to de-emphasize the importance of emotional factors, as the effects of emotions are difficult to model and quantify. The book asserts that a variety of otherwise puzzling questions can be answered once one allows for ...

Animal Spirits: How Human Psychology Drives the Economy ...

Animal Spirits is an well-written treatise accessible to both economists and non-economists alike. It summarises well the areas where behavioural economic research indicates real deficiencies in current macroeconomic models; what it does not do is propose obvious alternative models that are not themselves subject to obvious problems.

Animal Spirits: How Human Psychology Drives the Economy ...

Animal Spirits was written by two well-known economists (George Akerlof and Robert J. Shiller), with many well-regarded books to their names. It's about a fascinating subject: behavioral economics and how human psychology affects market decisions. It received many impressive blurbs for its book jacket. The subject is very intriguing, it dove-tails nicely with many of the books I've read on ...
