Doctor Who The Second Unit

The second condition applies to any circuits where an earth fault current is not sufficient to blow the fuse, or trip the switch, in the designated time allowance made in the regulations. This generally applies to higher Amp rated appliances (showers, cookers etc) but it should always be checked with an electrician as to which circuits need to be placed on the RCD side of the consumer unit.

Installing a Consumer Unit - Consumer Units Explained | DIY Doctor

I raised the failure of the transition unit to have an effective transition plan in an earlier post of Otaihanga Second Opinion (12 May): Transition unit without a transition plan. A further post (22 May) discussed EY's increasing paid work in the district health boards (DHBs): A nicer little earner.

The Third Doctor, who was exiled by the Time Lords to Earth in the 20th century for a significant period of his life, was a distinguished man of high class and gadgetry, often tinkering away and privy with machines. He also liked to share his wisdom with those who had open minds, but his patience would quickly dissolve if something annoyed him. Those who got on his good side soon found him to ...
