AFNOR also runs the offices of WG3, responsible for EN 13480-3, and WG8, the maintenance group. The final draft version of the EN 13480-3 was adopted by the working group responsible, CEN/TC 267/WGC (now renamed WG3) in October 2001. Four to five German experts were permanently active in WGC.

Metallic industrial piping – Designs and calculation
The EN 13480 is still pretty new, and from my (humble and little) experience so far, Ive found the code to contain certain imperfections and inconsistencies. The design rules are much more extensive than B31.3, there's a formula for almost anyting in the code. On the other hand, there are a lot of similarities w/ B31.3.

Changing to EN 13480 from ASME B31.3 - Pipelines, Piping ...
It is recommended for use by person with a basic understanding of EN 13480-3, ASME B31.1 or ASME B31.3. Our apps should be used together with relevant standards. The user is responsible for the accuracy of the methods, procedures and results. The computed results need to be interpreted with regards to construction by a professional.
