Energy Conservation & Audit ECA Question Papers

An energy audit is an inspection survey and an analysis of energy flows for energy conservation in a building. It may include a process or system to

reduce the amount of energy input into the system without negatively affecting the output. In commercial and industrial real estate, an energy audit is the first step in identifying opportunities to reduce energy expense and carbon footprint.

Energy audit - Wikipedia

02 ENERGY CONSERVATION HANDBOOK ENERGY CONSERVATION HANDBOOK 03 We take this as a great opportunity to share with you this "Handbook on Energy Conservation" on the occasion of Two Day National Workshop on Energy Conservation - Policies & Initiatives held on 28th Feb-1st Mar 2013, at UPES Dehradun.

ENERGY CONSERVATION HANDBOOK

The value of a home energy audit depends on the quality of the energy auditor. For example, an auditor that provides audits as part of an existing company may offer biased recommendations. Conversely, a certified and unbiased energy auditor provides neutral recommendations that yield the most improvement in your home.
