The Ford Duratorq engine, commonly referred to as Duratorq, is the marketing name of a range of Ford diesel engines first introduced in 2000 for the Ford Mondeo range of cars. The larger capacity 5-cylinder units use the Power Stroke branding when installed in North American-market vehicles.. The first design, codenamed "Puma" during its development, replaced the older Endura-D unit which had ...

The Lynx engine itself has a reputation for being mechanically bulletproof as long as the oil has been changed when it should have been. The only exception to this that I can think of is the crap batches of injectors that Siemens supplied to Ford back in 2009, although if you've got the "crap" ones they usually fail within 40K miles.
