Write the Fourier's law of heat conduction equation. Here, is the rate of heat transfer, A is the cross-sectional area normal to the direction of heat flow, k is the thermal conductivity, is the temperature difference, and is the thickness of the material. The minus sign indicates, heat flow will be in the direction of decreasing temperature.

Heat Transfer 10th Edition Textbook Solutions | Chegg.com
A solutions manual that contains complete solutions to all of the problems in this book is available. The manual incorporates the same problem-solving methodology as adopted in the worked examples in this book. It also provides summaries of the major equations developed in each chapter. An interactive computer program also accompanies this book.
