Documentary film 'Out of Thin Air' revisits the case. As a pure story, it's limited by the absence of resolution: we still don't know what happened, nor have the accusations of a fit-up been ratified by the courts. But it's still a striking and depressing story, one that muddies Iceland's image as a supremely civilised country.

Banks do not create money out of thin air. Pontus Rendahl, Lukas B. Freund 14 December 2019. In recent years, some have claimed that banks create money 'ex nihilo'. This column explains that banks do not create money out of thin air. From an economic viewpoint, commercial banks create private money by transforming an illiquid asset (the borrower's future ability to repay) into a liquid one (bank deposits): they would quickly be insolvent otherwise.
