The World in 2050: Four Forces Shaping Civilization's ...

What will the world look like in 2050? This report explores four plausible future scenarios based on the intersection between our planet's health and societal conditions. The four divergent futures - Humans Inc., Extinction Express, Greentocracy and Post Anthropocene - range from the collapse of our society and natural systems, to the two living in sustainable harmony.

Four plausible futures: 2050 scenarios - Arup

world. The world faces the looming challenge of feeding an expanding population that is expected to reach 9 billion by 2050, from just over 7 billion today, while climate change is increasing uncertainty for farmers.

Four Steps to Feeding the World in 2050

We have developed four scenarios, or pictures of what the world may look like in 2050. The thirty-year timeframe is long enough for the scenarios to differ substantially from each other, and also reflects the planning horizon of governments and regulatory bodies, and hence companies.
